

## MOULD RELEASE SPRAY Non-Silicone Dry Film Spray

**Mould Release Spray is designed to give fast, efficient and clean release with faithful reproduction of the mould profile however complex the mould or minute the detail. Suitable for use on all plastic and rubber mould tools including injection, compression and blow mouldings.**

**Mould Release Spray penetrates and spreads to all parts of the most intricate moulds to give full, clean release whilst the dry film will not affect profiles or interfere with precision fits. Applied film has excellent adhesion, is non-staining, will not transfer to product and can be safely used without fear of blemish or any adverse effect on subsequent finishing operations.**

### Features

- Effective release of plastics and rubber moulded parts.
- Thin film - will not affect profiles or interfere with precision fits.
- Will not affect subsequent finishing operations
- Silicone free.

### Directions for Use

Shake well, hold upright and spray from a distance of approximately 15-30cm (6-12 inches). One pass usually provides sufficient coating. Ensure adequate ventilation.

Do not spray onto naked flame or any incandescent material. When using do not smoke. Wash hands before smoking or handling tobacco products.
