

# Hose Clamps

Standard Material:

- SS304

Specification				<div>Application:</div> <p>Hose clamps are mechanical devices designed to secure and fasten hoses onto fittings or connectors. They create a tight and secure seal between the hose and the connected component, preventing leaks or disconnections. This ensures a firm connection and helps to prevent the hose from slipping off or leaking. Hose clamps are also referred to as jubilee clamps.</p>
SIZE	Width(mm)	Thick(mm)	Clamping Range(mm)	
1/2"	8.0	0.60	8-12'	
3/4"	8.0	0.60	13-19	
1"	8.0	0.60	16-25	
1-1/4"	12.7	0.60	18-32	
1-1/2"	12.7	0.60	21-38	
2"	12.7	0.60	27-51	
2-1/2"	12.7	0.60	40-64	
3"	12.7	0.60	52-76	
4"	12.7	0.60	91-114
