

FEATURES DESIGN

Material: EPDM

EPDM gaskets have a very good water and steam resistance, however they do not hold up well to animal fats, oil and most acids because of their polymer structure. EPDM (Ethylene Propylene Diene Monomer) operates best in a temperate range of (-30° - 300°F). EPDM has better resistivity to general cleaning chemicals than silicone.

DIMENSIONS

SIZE	D1	D2	B
inch	mm	mm	mm
1"	26	40	20
1 1/2"	38	54	21
2"	51	67	21
2 1/2"	60.5	80	22
3"	74	93	24
4"	101	116	26
